## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election of Group I, Species A in Paper No. 8 is acknowledged.

Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. Claims 11-19 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 8.

### *Claim Rejections - 35 USC § 112*

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 4-7, °10 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "minimal" in claims 4 and 20 is a relative term which renders the claim indefinite. The term "minimal" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. It is uncertain what odds are defined by the recitation "minimal chance" or how those odds are determined.

Claim 10 recites the limitation "the side pieces" in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.

### ***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1, 2, 8, 9 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Han (5,676,315).

With respect to claims 1, 2, 9 and 20, Han discloses a sprinkler comprising: an outer housing 13; a riser 15; a nozzle 31; a turbine 23; a drive mechanism including an over-center mechanism which includes a first lever 103 and a second lever 105 held together by a spring 101.

With respect to claim 8, Han discloses a link arm 135 coupled to one of the levers [lever 103] for linear movement [of lever 103].
